---

**Following a review of the Safer, Stronger Communities Partnership the following recommendations were agreed by the Board.**

1. Reduce size of the Safer Stronger Communities Partnership (SSCP) to no more than 7-10; the main tasks of this group will be to focus on effective strategic decisions
2. Board membership must ensure link to the Leaders Board as well as other Strategic Boards to ensure that any cross-cutting issues are addressed and key stakeholders are involved
3. Board to receive information and analysis from a variety of sources, including data and finance information, in order to guide decision making
4. Board to receive a measurement of progress and achievements at least half yearly
5. Undertake a review of the role of the PMCG in respect of performance monitoring and commissioning and the role of an operational group in order to deliver outcomes
6. Undertake a review of all budgets that support community safety across the partners and review all current interventions, whether commissioned or multi-agency based in respect of their effectiveness and use of resources as part of a value for money approach
7. Agree processes that 'commission' new services to deliver partnership outcomes i.e. those that can only be delivered in partnership. Mainstream and additional funds follow directly each of the small number of priorities
8. That the Strategic Groups that currently exist, apart from the Domestic Abuse Forum, cease to meet and reports on initiatives to address priority areas currently overseen by the SSCP are presented to the PMCG or Board as appropriate

A full copy of the report can be made available on request.
